

What is a Time-Ticket?

Beginning with Spring 2024 registration, the Office of the Registrar will be utilizing Time-Tickets to control students' registration times. Time-Tickets give you access to register for courses beginning at a designated time.

How is My Time-Ticket Determined?

Time-Tickets are determined based off several criteria, including student level, earned credit hours, and various priority student attributes. You can view the Time-Ticket times posted under [Registration Appointments](#) on the Office of the Registrar webpage.

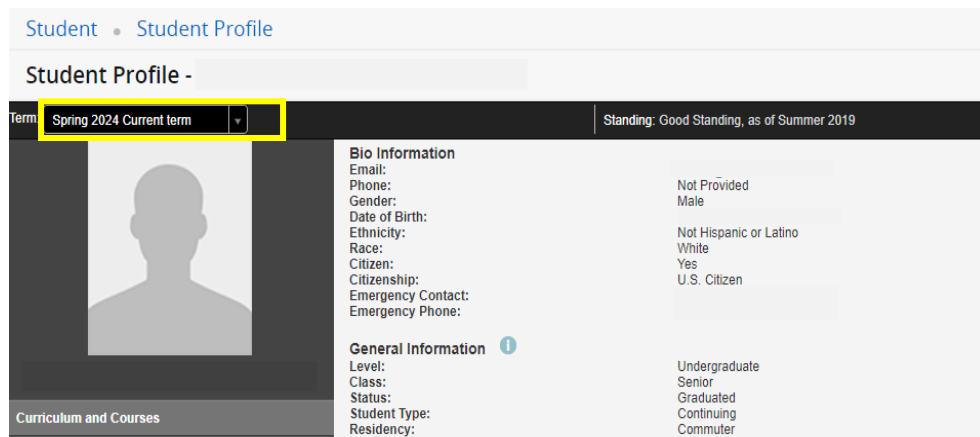

What About Registration PINs?

With the transition to Time-Tickets, students will no longer need a registration PIN to register for courses. Instead, undergraduate students will have a registration hold that is removed by their primary advisor.

How Can I View My Time-Ticket?

Your assigned Time-Ticket can be viewed in your Student Profile within the Cav Center by following the steps below.

- 1) Access your [Student Profile](#) within the Cav Center.
- 2) Within your Student Profile landing page, please be sure you have the correct term selected in the upper left-hand corner. For example, if you are looking for your Spring 2024 registration Time-Ticket, be sure you have Spring 2024 selected.
